## About LUSCIOUS HAVEN

### What is Luscious Haven?

Luscious Haven is a free Android app that guides you in discovering the latest food trends in Cebu! If you want to try something new, or if you are hungry for some savoury meals, Luscious Haven will help you find the right place for you to eat. Use Luscious Haven to browse through different kinds of restaurants and find out what you like best. Finding your next best dish is just a tap away!

### Who uses Luscious Haven?

If you are hungry for something new, and by hungry we mean stomach hungry, then Luscious Haven is just for you! Use this app to find the best places to eat and discover new places that are waiting to be visited by you.

## I. Application Login

When the Luscious Haven application is launched, the user is presented with a Login page. The user can find the fields for inputting the username and password, as well as the application's name and a Signup link. In order for the user to access the contents of the application, the user must login the details needed and if the user is new to the application, the Signup link will direct the user to the Register page.

Figure 1.0 is the Login page of application Luscious Haven. The user can enter the application once the login details are inputted or if the user registers for an account.

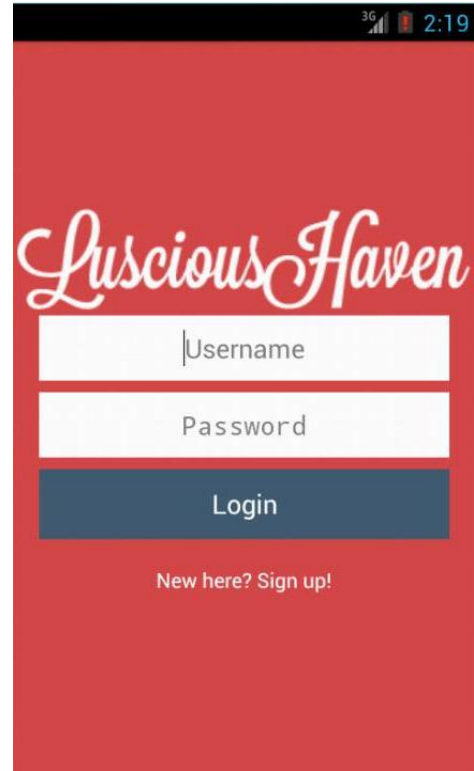

Figure 1.0

## II. Register

Upon tapping the sign up link, the user is then presented with the Register page. The user must fill in all the fields correctly. After registering, the user can now login into his account and use the application.

Figure 2.0 shows the overview of the Register page.

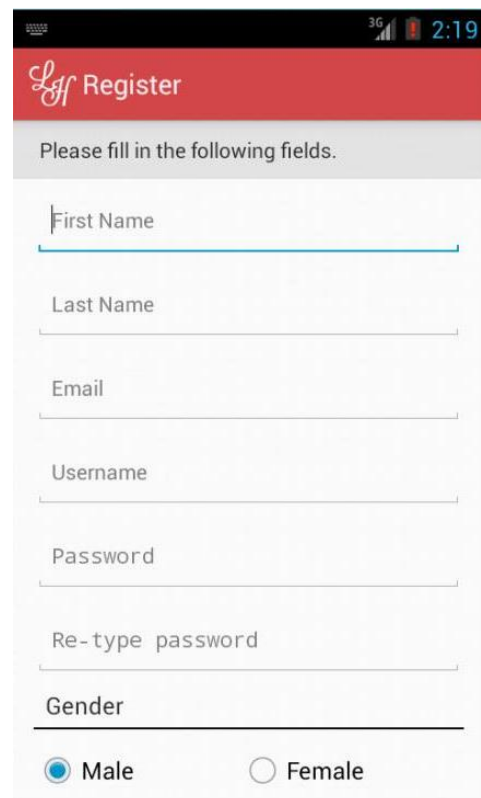

Figure 2.0

## III. Homepage

After the Login page, the user is directed to the homepage. Here, the user is presented with images from different restaurants/cafes, as well as the Main Menu of the application. The user can tap any menu icons depending on what the user wants to do. The Menu icons are as follows: Restaurants, Favourites, What's Hot, Categories, Settings, and Logout. When the user taps a menu icon, the user will be directed to the page of that menu icon.

Figure 3.0 shows the Home page Luscious Haven that displays three random images of restaurants and cafes, with the Main Menu icons located below the images.

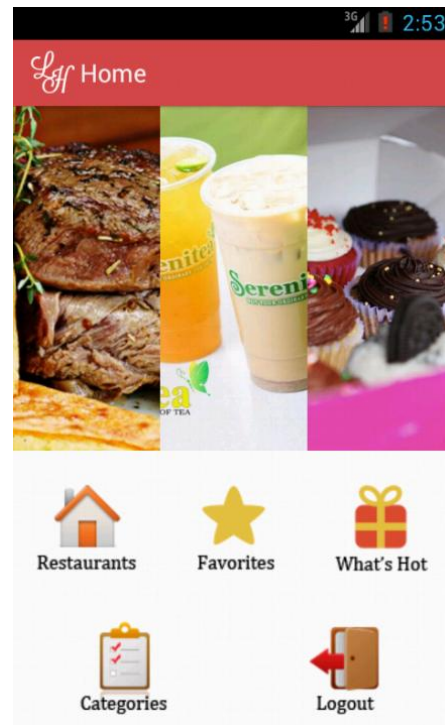

Figure 3.0

## IV. Restaurants

When the user taps the Restaurants icon from the Home Page, the user will be directed to the Restaurants page. This page displays the list of all restaurants that are available in Cebu. The details of each restaurant are also included such as: Restaurant image, name, telephone number, and its type. Tapping a restaurant will direct the user to the Profile Page of that restaurant.

Figure 4.0 shows the list of restaurants wherein the user can tap a particular restaurant that will direct the user to its Profile page where the full details of that restaurant is displayed.

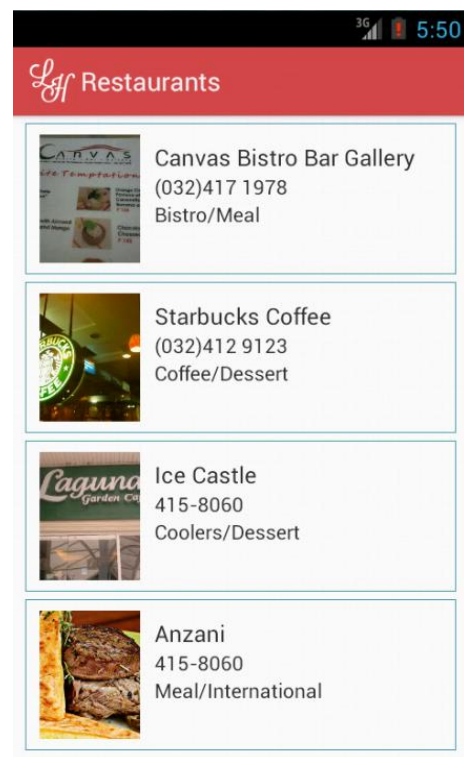

Figure 4.0

## V. Favorites

When the user taps the Favorites icon from the Home Page, the user will be directed to the Favorites page. This page displays the list of all restaurants that are favorited by the user. The details of each restaurant are also included such as: Restaurant image, name, telephone number, and its type. Tapping a restaurant will direct the user to the Profile Page of that restaurant.

Figure 5.0 shows the list of restaurants that are listed as Favorites by the user. When the user taps a restaurant, the user will be directed to the the Profile page of that restaurant where the full contents of the restaurant are shown.

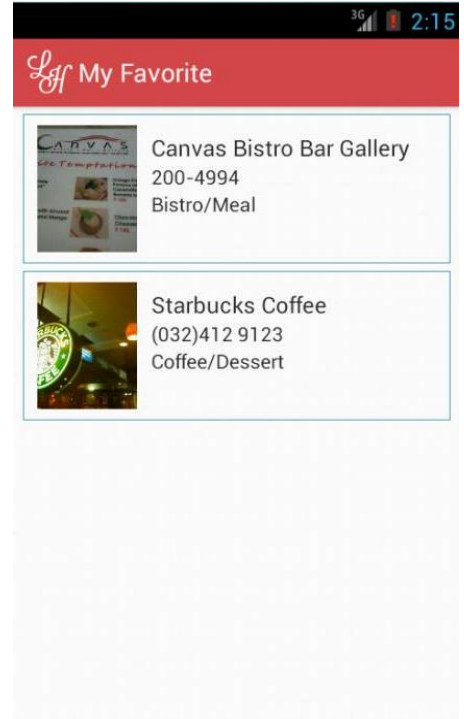

Figure 5.0

## VI. What's Hot

When the user taps the What's Hot icon from the Home Page, the user will be directed to the What's Hot page. This page displays the list of all restaurants that are currently trending in Cebu. The details of each restaurant are also included such as: Restaurant image, name, telephone number, and its type. Tapping a restaurant will direct the user to the Profile Page of that restaurant.

Figure 6.0 shows the list of restaurants that are currently trending or famous in Cebu. When the user taps a restaurant, the user will be directed to the Profile page of that restaurant where the full contents of the restaurant are shown.

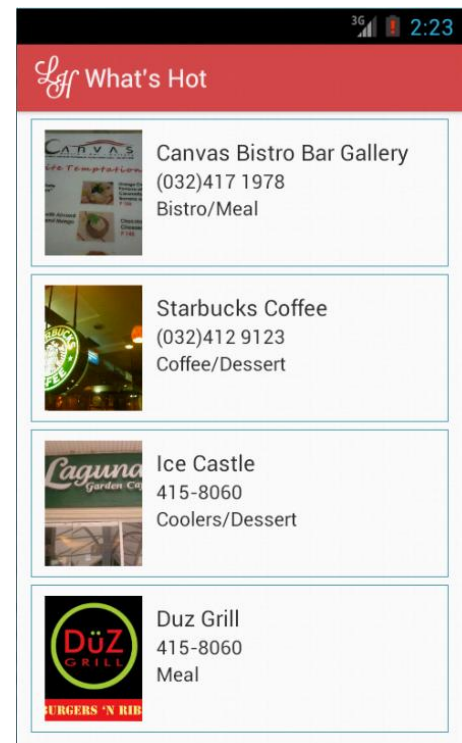

Figure 6.0

## V. Categories

After tapping Categories in the homepage, the user is directed to the categories page. Here, the user is presented with the food categories. By clicking each image, the user will easily navigate the different kinds of variety of food choices. (See Figure 7.0)

Figure 7.0 shows the Categories page of the application that gives an overview of the different categories of food available. The user is able to see and discover each category by tapping them.

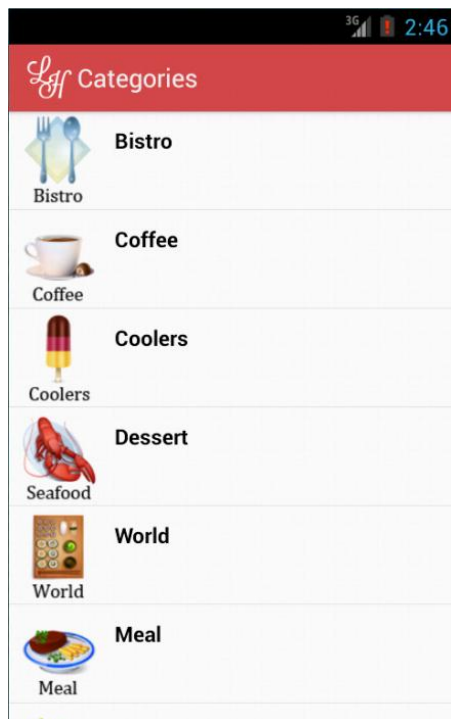

Figure 7.0

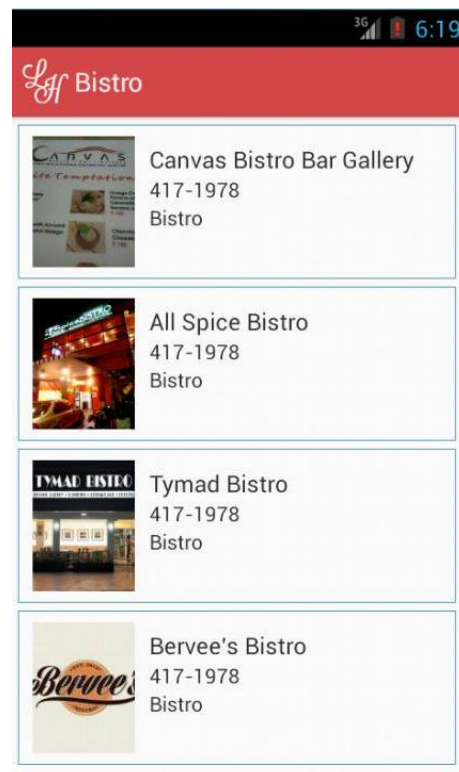

Figure 8.0

Figure 8.0 shows the list of restaurants under the category, Bistro. When user taps a category, the user is redirected to the list corresponding to its category.

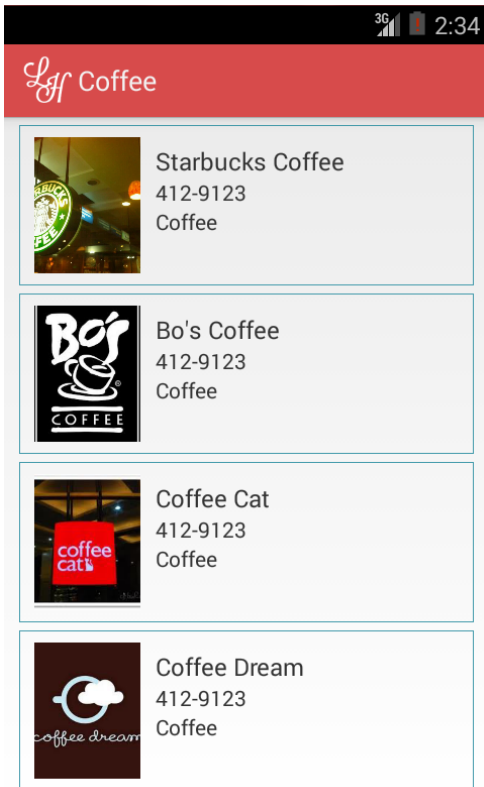

Figure 9.0

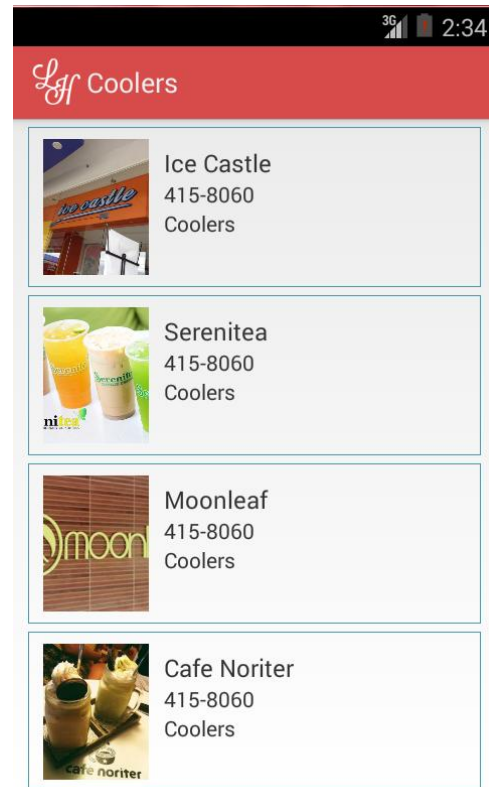

Figure 10.0

Figure 9.0 shows the list of restaurants under the Coffee category. If user taps a restaurant from the list, the user will be redirected to the profile page of that restaurant.

Figure 10.0 likewise shows the list of restaurants under the Coolers category.

## VI. Restaurant Profile

Each restaurant has its own profile. The user will be able to see the restaurant's location, contact details, category and the minimum budget required to be able to avail the restaurants food and services. When the user taps the name of the restaurant, the user will then be presented with a photo of one of the establishment's top rated or famous dishes/ servings. The user can include the restaurant to his Favorites list by tapping the heart icon shown in the page. (See figure 9.0 and 10.0)
